

SPORTS

WILL BE SEVEN GAMES IN SERIES

The Pendleton team, which left this morning for Walla Walla, will meet the Bears in a seven-game series instead of a six game series while but five games will be played against North Yakima during the closing week. This was the announcement made over the wire yesterday by President W. N. Sweet. The change is due to the fact that Labor Day falls on Monday and games will be played in both Walla Walla and Boise on that day. Tuesday will be moving day and hence the final series will not start until Wednesday. With but little over a hundred points separating the top and bottom clubs, the present week will have a considerable effect upon the outcome of the pennant race. Despite her disastrous week here, the Boise club still rests on the pinnacle with Yakima second. These two teams will fight it out in Boise while the Bucks will attempt to pull Walla Walla into the cellar. It would be useless to attempt a prediction of the outcome for the dope pot has been upset so often of late that any team might almost be expected to do just opposite to what is expected.

Manager Callahan Suspended.
CHICAGO, Aug. 26.—It became known yesterday that Manager Callahan of the local American league club has been indefinitely suspended by President Johnson of the league as a result of his altercation with Umpire McGreevy in Saturday's game between Philadelphia and Chicago. Callahan had objected to a decision at first base early in the game.

BUCKAROOS OUTBAT BOISE 100 POINTS

Pendleton Almost Bats .300 as a Team—Peterson and Dean Leading Hitters.

By an even 100 points, the Pendleton Buckaroos last week outbatted the Boise Irrigators which fact, taken into consideration with a superior fielding record, explains readily why the tailenders triumphed over the league leaders in six straight games. Pendleton as a team hit at a .297 clip while the Boise squad only made an average of .197. The failure of the Idaho club to bat .200 is a great tribute to the work of the Pendleton twirling staff.

Peterson, the Buck third sacker, proved the leading hitter of the week with an average of .412, while Dean, the slugging outfielder, was but a few points, ending with .391. Peel, who pitched two games and won them, also did some stellar stickwork, hitting at a .571 clip. Osborne, who worked in the outfield for five games and pitched the other, hit the ball for .333.

Aside from Bonner, Boise had but two players who batted at all consistently. Friene hit .350 and Gard .333. Not another man outside of two pitchers even got into the .200 class.

Following are the records for the week:

Pendleton.	AB	H	Pct.
Naughton	19	5	.263
Lodell	25	7	.280
Varian	23	6	.261
Dean	23	9	.391

WATCH YOUR BABY THESE SUMMER DAYS

Little Stomachs Get Out of Order Easily in Hot Weather.

During the hot months mothers should look very carefully to the condition of the bowels of babies and young children, and, for that matter, it is very important in the lives of people at all ages. Care should be taken that the water is pure, the milk wholesome and the fruit ripe (though not over-ripe) and that not too much of anything is eaten.

When trouble results it is usually in the form of constipation or of diarrhoea. If the child loses appetite, is fretful or languid, and complains of headache, you may look for constipation. Give it a small dose of Dr. Caldwell's Syrup Pepsin at night on retiring, and by morning this pleasant laxative will have acted and the child will be its normal self again.

At the first sign of a summer cold also give Syrup Pepsin, as the cleaning out of the bowels will usually be sufficient to break the cold. Summer diarrhoea can be stopped in the same way by ridding the bowels of the poisons and germs that cause the trouble. This opinion of the value of Syrup Pepsin is shared by thousands of people like Mrs. Ella Denzel, 124 Nichols Ave., Stratford, Conn., who uses it successfully herself and gives

it to her two little boys; and Mrs. C. C. Allen of New Monterey, Cal., who finds it in every particular just what she and her family need.

Avoid giving children cathartics, purgatives, pills or powders, as they are too harsh. Confine yourself to a gentle laxative- tonic like Dr. Caldwell's Syrup Pepsin. You can obtain it of any druggist at fifty cents and one dollar a bottle the latter being the family size.

Families wishing to try a free sample bottle can obtain it, postpaid, by addressing Dr. W. B. Caldwell, 413 Washington St., Monticello, Ill.

RAY CAMPBELL IS RITCHIE OPONENT

Seattle Lad Gets Decision in Ten Round Elimination Contest at Vancouver.

VANCOUVER, B. C., Aug. 26.—The elimination contest at Brighouse arena to decide whether Eddie Moy of Allentown, Pa., or Ray Campbell of Seattle should be the opponent of Willie Ritchie here on Labor Day, was won by the Seattle boy after a lively fight of ten rounds. Neither fighter showed light weight class but they were fairly evenly matched. Referee Jimmie Hewitt's decision was not well received at the finish.

DEVLIN, VETERAN PLAYER, RELEASED

BOSTON, Aug. 26.—The passing of another veteran player from major league baseball was recorded yesterday when President James Gaffney of the Boston National league club announced that Arthur Devlin, third baseman, had been released to Rochester of the International League.

Devlin was one of the old New York National league stars whose work helped the Giants win several league championships and one world championship—that in 1905. Since he came to the local National league club in the spring of 1912, his fielding has been up to his former average, but in batting and base running he fell off to such an extent this season that he has been used only as a substitute.

Devlin's last game in the big league had something of the dramatic about it. Coming to the bat as a pinch hitter in the ninth inning of yesterday's game against Pittsburgh, he drove in the run which tied the score for Boston with a well placed hit to right field. He did not know at that time that he was to be released after the game.

DONAHUE, EX-STAR PITCHER, IS DEAD

PHILADELPHIA, Aug. 26.—Frank L. (Red) Donahue, star pitcher, a dozen years died at his home here yesterday after a long illness. He was 41 years old. He retired from baseball seven years ago and entered business.

Donahue entered professional baseball in 1892 when he played with the Milford, Conn. team. Later he played with Lowell of the New England league and with the Allentown, Pa. team. He signed with the St. Louis Nationals in 1896 and the following years was with the Philadelphia Nationals where he remained until 1902 when he entered the American league playing with St. Louis, Cleveland and Detroit. Donahue, while with Philadelphia Nationals pitched a no-hit game against Boston.

FOREST GROVE BARS X-RAY.

Mayor of Smaller City Follows Lead Set by Portland.

PORTLAND, Ore., Aug. 26.—And now the X-ray skirt is tabooed in Forest Grove, Ore. Mayor Albee yesterday received a letter from Mayor Sanford of that city announcing that Forest Grove would follow the example of the Portland executive in prohibiting the wearing of transparent dresses on the streets.

"Your example," writes Mayor Sanford, "will have a moral influence to help all of the towns in our state to put a stop to immodest dress. I shall follow your example in Forest Grove."

Mayor Albee yesterday received a number of letters of congratulation on his X-ray edict. One woman in Antioch, Cal., writes: "I stand on our streets and feel ashamed of my sex."

Awaiting The Joyful Sound

The Wonderful Music that Bursts Forth When the Stork Arrives.

That funny, little, brassy cry that echoes the arrival of the new baby is perhaps the

most cherished remembrance of our lives. And thousands of happy mothers owe their preservation to health and strength to Mother's Friend. This is an external remedy that is applied to the abdominal muscles. It relieves all the tension, prevents tenderness and pain, enables the muscles to expand gently, and, when baby comes, the muscles relax naturally, the form is preserved without laceration or other accident.

You will find Mother's Friend on sale at almost any drug store, as it is one of the standard, reliable remedies that grandmothers everywhere have relied upon.

With its daily use during the period of expectation, there is no weakness, no nausea, no morning sickness, no pain, distress or strain of any kind. Its influence is truly remarkable, as it penetrates the tissues and renders them pliant and easily governed by the demands of nature. You will be surprised at its wonderful effect and what a grateful relief it affords.

Especially to young women Mother's Friend is one of the greatest of all helpful influences. You will find this wonderful remedy on sale at the store where you bought your first book for you. It is prepared by Bradford Regulator Co., 136 Lamar Building, Atlanta, Ga. Write them for a very valuable book to expectant mothers.

WELSH GOES INTO TRAINING AGAIN

VANCOUVER, B. C., Aug. 26.—(Special).—Freddie Welsh, British lightweight champion, announced today that he would start light training immediately for his forthcoming battle here with Willie Ritchie, world's champion, scheduled for Sept. 20. Welsh has taken more than a week's absolute rest, and his injured ankle, which caused a postponement of the world's championship battle from Labor Day until Sept. 20, has healed with surprising rapidity.

Welsh was able to attend the Moy-Campbell bout in the same arena, on Saturday afternoon, and was introduced from the ring with his rival, Champion Ritchie. Welsh used his ankles freely, and it showed no traces of weakness. He will give it another week's complete rest, and shortly after the Labor Day contest, in which Ritchie takes part, Welsh will start active training.

Ritchie is working hard for his two battles in Vancouver. He has engaged both Frank Battica and Joe Bayley as his sparring partners, all working under the direction of Manager Harry Foley, who is handling and training the champion. Ritchie and Welsh present the opposite contrasts of the ring. Ritchie, brown as a berry, robust and devoting all his time to developing strength and a punch, is the type of the boxer, pure and simple. Welsh, white as milk, and fast as a flash, pays no attention to his punching power, but will work every minute to increase his already lightning-like moves, and depend on his boxing and ring generalship to wrest the title away from the champion.

Welsh appears to know Ritchie's ring tactics, and believes that he can outpoint the champion just as easily as he did two years ago at Los Angeles. Ritchie, on the other hand, has increased punching power and believes that after he lands a few of his terrific blows, he will bring Welsh down to his own speed. Interest in the battle is just as intense as though it had not been postponed, and those who had reserved seats are holding them for the battle of September 20th.

WILL ORGANIZE TO FIGHT FIREBLIGHT

OREGON AGRICULTURAL COLLEGE, Corvallis, Ore., Aug. 26.—The general and rapid spread of the deadly fireblight in the pear and apple orchards of Oregon can be checked by means of organized campaigns to carry out the standard treatment of cutting out all diseased parts of the tree, disinfecting the wounds and burning the brush, according to Professor H. S. Jackson, head of the Plant Pathology department of the Oregon Agricultural College. These radical measures have already been instituted in one of the important fruit districts of the state and are in a fair way to be applied in one other. As the disease is prevalent in a more or less serious aspect in every county of eastern Oregon with the possible exception of Wasco, experts in plant diseases believe that no time should be lost in putting measures into effect.

While methods of procedure will vary somewhat in the different sections of the state, the plan followed successfully in the La Grande district can be made the basis of plans suitable in most other districts. This campaign, which has been in operation for several years, is described by Professor Jackson as follows:

"Requests for aid for the La Grande district came through the state board of horticulture. In response I went to La Grande about July 7, and held lectures there and at Elgin. Subsequently I visited all parts of the Grand Ronde valley. As a result of this inspection of the orchards there a meeting was held Saturday afternoon, July 12, at which the matter of handling the situation throughout the valley was discussed and a committee appointed to present to the county court a petition asking for funds to provide for demonstration work. As a result of that action \$500 was appropriated by the county court on August 6.

"I secured for the fruit growers the services of C. C. Hyde and M. M. Winslow, graduates of the O. A. C. in horticulture, who spent the summer in the Rogue river valley as blight experts and are thoroughly familiar with methods of cutting out the disease. The campaign was organized in such a way that demonstrations in cutting out the disease and disinfecting the wounds are being conducted in various orchards by these men. They expect to cover all parts of the valley. They will follow up the demonstration with careful inspection as carried on by the inspection service, as soon as the growers are thoroughly familiar with the details of the work. This procedure interferes in no way with the regular county inspection service but is an aid to inspectors in familiarizing them with the disease and the best methods of treatment. My part in the work has been purely that of organization under the general direction of the college extension service."

POLICE WILL RETURN FROM STAY IN NORTH

EDMONTON, Alta., Aug. 26.—Six officers of the Royal Northwest Mounted Police, who have been on Herschel Island and Fort McPherson, both inside the Arctic circle, since the summer of 1911, will arrive in Edmonton in a few days, and it is expected they will bring word of Harry V. Radford, an American explorer, who has been in the north for several years. The party relieving the returning officers left Edmonton in June and reached the world's rim the middle of July, when the latter started for civilization. The post at Herschel Island is a log building with a

Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

similar structure for the horses. In the winter the outpost is covered with snow, while in the summer it stands on a bleak plain, with the sun blazing on it 24 hours a day, six months in the year it is dark and the rest of the time it is light. Superintendent Fitzgerald and two companions lost their lives near the island several years ago in attempting to negotiate the trail during a blizzard.

TOWN HUNTS MAD COYOTE.

Two Dogs Bitten by Rabid Animal on Outskirts of Baker.
BAKER, Ore., Aug. 26.—North Powder is up in arms on the hunt for a mad coyote that is skirting the edge

of the town. It was seen Saturday night attacking a dog on the Chris Johnson ranch, and was driven away by Frank Hobbs. It was next seen at the J. W. McPhee ranch biting McPhee's dog. It escaped and next was sighted near the outskirts of the town.

Both dogs were immediately shot and all the ranchers and others living at the town boundaries are keeping a close watch.

Kills Himself.

MOCLIPS, Wn., Aug. 26.—Ernest Forward, a mill hand, shot and killed himself today at the home of Mrs. Susie Pemberton, his fiancée.

That Wonderful Event

IF THERE is a time above all times when a woman should be in perfect physical condition it is the time previous to the coming of her babe. During this period many women suffer from headache, sleeplessness, pains of various description, poor appetite, and a host of other ailments which should be eliminated in justice to the new life about to be ushered into this world.

DR. PIERCE'S FAVORITE PRESCRIPTION

is a scientific medicine carefully compounded by an experienced and skillful physician, and adapted to the needs and requirements of woman's delicate system. It has been recommended for over forty years as a remedy for those peculiar ailments which make their appearance during "the expectant" period. Motherhood is made easier by its use. Thousands of women have been benefited by this great medicine.

Your druggist can supply you in liquid or tablet form, or you can send 50 one-cent stamps for a trial box of Dr. Pierce's Favorite Prescription Tablets, to Dr. Pierce, at Invalids' Hotel and Surgical Institute, Buffalo.

It is your privilege to write to Dr. Pierce for advice, and it will be gladly given free of charge. Of course all communications are confidential.

KEEP IN PERFECT HEALTH

MAKE RICH BLOOD

RECOMMENDS WHITBREAD

The wonderful tonic and beverage of Whitbread is made from the finest barley, malt and hops to be obtained, and is recommended by the great doctors in England because it is matured in bottles in England and sent direct to America, and contains only its natural gas. Whitbread English Ale or Whitbread Renowned Stout (Malted Extract) are unlike all others, being most easily digested; in fact, a wonderful tonic for the stomach. For sleeplessness, anaemia and for nervous invalids and those in a run-down condition it is invaluable. Whitbread Ale or Stout has been an instant relief to thousands of

suffering women. The most temperate drink Whitbread Ale or Whitbread Stout because they are not only a delicious beverage, but a tonic and blood giver. Doctors, clergymen and professional men consume Whitbread Ale or Stout to build up the system and for nervousness due to overwork. A glass of Whitbread at night time and with the meals gives that restful sleep. Do not accept any substitute as Whitbread Ale or Stout are unlike all other English Ales or Stouts, being matured in bottles. A trial from your local dealer will convince you of the wonderful effect of Whitbread Ale or Stout.
